Clara Dias

Senior Product Designer

Systemic thinker that designs as a way to transform problems into empowering opportunities. Connecting people with the products they use. Worked on fleet mobility & performance, healthcare, education, and the arts.

WORK EXPERIENCE

SENIOR UX DESIGNER - CHARGEPOINT

May 2023 - Present - Amsterdam, Netherlands

Senior UX Designer on the Enterprise platforms. Building tools and product flows to enable customers smart charging solutions.

- Collaborating with PM and Dev to define scope, strategy and OKRs
- Identify global UX needs in development workflows and scope projects to address them horizontally across the organization
- Define the UX for onboarding flows, app management, settings UIs, alerting notifications, dashboard and reporting: user journeys, workshops and prototyping to inform vision
- Collaborating with UX Research team to integrate research & testing as part of the product life cycle and foster continuous discoveries activities in the organization
- Working with the Design Systems team and the UX team, creating tools and documentation to scale our team efforts and increase velocity for other infra teams
- Collaborating with Dev to design scalable solutions to unblock product growth

PRODUCT DESIGNER - SWAPFIETS

Dec 2021 - Feb 2023 - Amsterdam, Netherlands

Product Designer with the Team Planning. Building and iterating tools (AI and machine learning) that power the workflow of the operations and customer service people leading to a maximisation of fleet performance from subscription to field & delivery across desktop, mobile, iOS, Android and emails

This lead to:

- Increase of 50% more available appointments to users,
- Significant decrease of appointment time by 70%;
- 90% reduction of customer support tickets;
- 50% reduction on time for planning of first appointments.

UX DESIGNER - VISUALFABRIQ

July 2021 - Nov 2021 - Utrecht, Netherlands

- Building tools and product flows to enable B2B customers' revenue management
- Facilitate discovery workshops and other activities to integrate qualitative and quantitative customers' insights in shaping the new information architecture

LEAD UX/UI DESIGNER - OCTOPUS ENERGY

Aug 2020 - June 2021 - London, United Kingdom

- Lead the entire user experience and design system for Electric Juice app, the first native app for Octopus Energy: iOS and Android

LEAD PRODUCT DESIGNER - RIPPLE ENERGY

Aug 2019 - July 2020 - London, United Kingdom

- Lead the user experience for B2C responsive website, resulting in user adoption increase of 40%
